YOU'VE GOT TIME TO THINK CRITICALLY - LYRICS

When you see it on a screen It may not be just what it seems

Just take a second use your head Think about what's really said

You've got time to think it over There's no rush to make decisions

You've got
Time to think it through
There is no hurry
just remember

To Think Critically

So breathe breathe it out Stop, think, check what it's all about

Use your brain that's your power Truth shines brighter every hour

You've got time to

think it over There's no rush to make decisions

You've got Time to think it through There is no hurry just remember

To Think Critically
