

## SPOT THE TRUTH CHALLENGE - SUGGESTIONS - FOR OLDER KIDS (4-8)

Here are some fun ideas to help students get started with their #SpotTheTruthChallenge videos! These examples show one true statement and one made-up statement—but your students are free to create their own. Videos will be judged on creativity, originality, fun, and how clearly they communicate the THINK FIRST message. Use these prompts as inspiration, or let your students invent something completely new. And yes—your class can submit more than one video!

### VIDEO REQUIREMENTS — Your Entry Must Include ALL of These:

1. **Length:** Create a short video (30–60 seconds).
2. **Opening Line:** A student must say: ***“Can you spot the truth?”***
3. **Two Claims:** Show **one truth** and **one non-truth** (lie, fake, or made-up idea).
4. **Think First Moment:** Pause briefly so the viewer can **THINK FIRST**.
5. **Reveal:** Clearly show or say **which one was the truth**.
6. **Closing Line:** End with a student saying:  
***“ALWAYS think first before you like, comment, or share.”***

### GOOGLE FORM - SUBMISSION LINK

#### Technology

True: "3D printers can make things like toys, tools, and even houses."
